

YKD 6006 system is capable of:

- Loads 25-30 seeds on stage for growing
- Deposit film at speed of 10-15 micrometer per day
- Clear crystalline output within 14 days

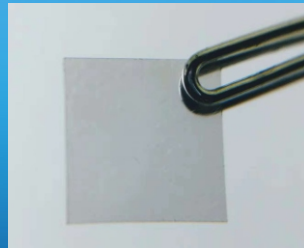

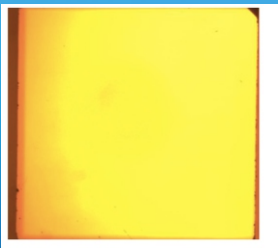

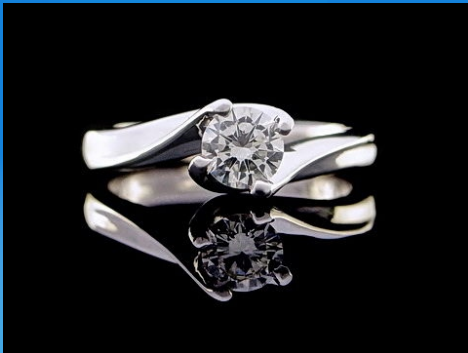

Applications

- Gem (Lab-grown diamond)
- Optical components
- Fine cutting tools
- Heat spreaders
- Electrochemical electrodes
- Electron emission devices
- Sensors
- Semi-conductor

	Specific Gravity	Dispersion	Refractive Index	Chemical Formula	Hardness
Grown Diamonds	3.52	0.044	2.42	C	10
Mined Diamonds	3.52	0.044	2.42	C	10

**Seeds Available
from 5x5mm to 15x15mm**
